Summary

Full Stack Developer with hands-on internship experience building scalable web applications using React, Next.js, Node.js, and MongoDB. Skilled in developing responsive frontend interfaces, designing REST APIs, and implementing secure authentication. Passionate about clean code and efficient system design.

Education

B.Tech – Information Technology

Bannari Amman Institute of Technology, Erode

CGPA: 8.21

Experience

Full Stack Developer Intern

Crayond Digital Pvt. Ltd, Chennai

Sep 2024 – Apr 2025

Developed reusable UI components using React and Tailwind CSS and worked on real-world product features in a professional environment. Improved UI usability, accessibility, and performance while collaborating with team members and integrating APIs using modern frontend workflows.

Projects

Contract Management System — React.js, Node.js, MongoDB

Developed a full-stack contract management platform to create, store, and manage contracts efficiently with a user-friendly interface. Implemented secure authentication, role-based access, and real-time contract tracking features. Designed responsive UI and optimized backend APIs to handle contract workflows effectively.

[Live Demo](#)

Finance Tracker Application — React, Node.js, Express, MongoDB

Built a full-stack application to track income and expenses with secure authentication and user-specific data handling. Designed interactive dashboards for financial insights and implemented REST APIs for efficient CRUD operations and data visualization.

Travella Admin Dashboard — React, Tailwind CSS, MUI

Developed a responsive admin dashboard for managing content and user data with an intuitive UI. Improved workflow efficiency by implementing dynamic data rendering and structured interfaces for better usability.

Burger Web App — React, Tailwind CSS

Created a responsive static web application for a food menu interface focusing on clean UI design, layout structure, and mobile responsiveness.

Technical Skills

Languages: HTML, CSS, JavaScript

Frontend: React.js, Next.js, Tailwind CSS, Material UI

Backend: Node.js, Express.js

Databases: MongoDB, PostgreSQL

Tools: Git, GitHub, Postman, Vercel, Figma

Concepts: REST API, Authentication (JWT), Responsive Design, CRUD Operations

Achievements

Solved 200+ problems on LeetCode and participated in WebStart Hackathon at IIT Madras E-Summit 2025.
